PREPARE FOR BEAR

Only You Can Prevent Bear Problems

Never feed a bear! Maintain a clean campsite,
store food, garbage, and coolers in closed vehicles
or bear-proof containers. Never keep food or
toiletries (toothpaste, soap, etc.) in your tent.

Report encounters with bears to your
campground host or the White Mountain
National Forest ((603) 536-6100).

Welcome To The White Mountain National Forest

Millions of visitors visit the WMNF each year. Miles of scenic drives and more than 1200 miles of trails offer a variety of experiences for people of all abilities and interests. Hiking, biking, camping, skiing, wildlife watching, and snowmobiling are just a few of the activities enjoyed in our mountains and valleys. These "working forest" lands also produce timber, support wildlife habitat, and provide clean water for our New England communities.

On August 28, 2011, Tropical Storm Irene came through the Forest causing about \$10 million of damage to roads, bridges, and trails. Please have patience as we work to restore these areas. We are doing a lot of good work this year, but there will be lots of good work still to do. To learn more and discover how you can help, visit <http://www.fs.usda.gov/whitemountain>.

The USDA is an equal opportunity
provider and employer.

The White Mountains Interpretive Association (WMIA) exists to encourage visitors to understand and appreciate our forest resources. Our goal is to offer great programs to share the beauty and wonder of this magnificent area.
